Audio Assignment
3D Demo Reel

You will combine your 3D animations with sound/music, that is appropriate for the action/motion taking place.

Adding sound is the Foley Artists job. Listen to different sound effects. Find sounds that match the different parts of the animation.   Use sites like the ones listed below to download sounds:

www.findsounds.com   www.soundcentral.com   www.sounddogs.com

Save all the files together as an 1 AVI file, upload to Youtube and embed in your weebly for grading.

Due date: Wednesday June 5th by the end of class.

	Level 4	Level 3	Level 2	Level 1
The Animations	All 4 animations have been skillfully produced. Min. requirements have been exceeded	All 4 animations have been created.	At least 1 animation is missing. The others have met basic requirements.	2 or more animations are missing. The others have met basic requirements.
The Sounds	A minimum of 2 carefully selected sound effects have been added to each animation along with background music	A minimum of 2 sound effects have been added to each animation. All are in place and mixed well.	Some sound effects missing and or do not fit well with videos. Not t realistic or out of place. Not mixed well.	Several errors or omissions in choice or placement of sounds. Not mixed well.
Compilation video	Unique and creative looking titles added for each clip and as intro. Exported correctly and embedded to portfolio. No errors or problems	A well constructed demo reel that has titles and flows smoothly. Embedded to portfolio.	A basic demo reel that merely satisfies the vary basics and shows very little creativity and no "wow" factor. Titles are basic, contain errors or are missing.	A very basic looking demo reel not up to the standards of a senior level student. Titles are missing along with other elements.
Creativity & Professionalism	Very professional looking. All elements and requirements are present	A very good attempt at a demo reel showcasing unique work.	A good attempt at a demo reel with only a few errors or problem areas	A poor attempt at a demo reel with many errors or omissions.
